

## **GENERAL NEWS**

Schwarzenburg, 28th April 2015

### **Foundation stone laid for new building**

**Schwarzenburg, CH: A foundation stone laying ceremony important for the future took place at the headquarters of Gilgen Door Systems on 14<sup>th</sup> April 2015.**

Jakob Gilgen, CEO Gilgen Door Systems, and Yosuke Mishiro, Director of Nabtesco Division's "Accessibility Innovations" laid the foundation stone for the new Gilgen building in bright Spring weather on Tuesday, 14<sup>th</sup> April 2015. This is a promising sign for the successful further development and future of the company.

The new building, an extension of the existing headquarters, will be completed by the end of 2015 and accommodate a Customer Service Competence Center which will enable us to work in the interest of our customers even more successfully than in the past.

An expansion of the production floor and a new, more generous showroom for the Gilgen Innovation products are also included, as are new training rooms with latest technical equipment for activities focused on partners and customers.

More information about Gilgen Door Systems and the products of the company are available at:
